22/11	<p>COVID vaccines are working.</p> <p>In countries with high vaccination rates, hospital visits and deaths are dropping significantly.</p> <p>#MedicinesMatter #DontWaitVaccinate</p>	<p>Download asset 1 here.</p> 
24/11	<p>Vaccines protect yourself, your family, and your friends.</p> <p>Vaccines will lower the risk of you catching the virus or passing it on to others.</p> <p>#MedicinesMatter #DontWaitVaccinate</p>	<p>Download asset 2 here.</p> 
26/11	<p>To protect the world, we need global vaccination.</p> <p>26.88 million COVID vaccines are administered every day but only 4% of people in vulnerable, low-income countries have received at least one dose. We need to urgently step-up dose sharing.</p> <p>#MedicinesMatter #DontWaitVaccinate</p>	<p>Download asset 3 here.</p> 

<p>29/11</p>	<p>Making a vaccine is not as simple as following a recipe.</p> <p>Thousands of experienced and skilled scientists have worked together in new ways over many years to develop safe and effective COVID vaccines.</p> <p>#MedicinesMatter #DontWaitVaccinate</p>	<p>Download asset 4 here.</p>  <p>Vaccines are complex biological products. It takes highly skilled people, specialised partners, facilities, equipment and quality ingredients to make them</p>
<p>1/12</p>	<p>We need to do more.</p> <p>Australia has demonstrated its values of mateship and fairness with donations that will help vaccinate the world but more can be done if we are to achieve a vaccinated world against COVID-19.</p> <p>#MedicinesMatter #DontWaitVaccinate</p>	<p>Download video here.</p>
