Summary Grants and Donations to Healthcare Organisations by Medicines Australia Member Companies

Company: Boehringer Ingelheim
Number of grants & donations made: 1
For the period: 30 March - 30 April 2025
Total cost of grants and donations: \$5,000

Date (month/year) on which the grant or donation was made	Name of Healthcare Organisation	Description of the purpose of the grant or donation	Total monetary value of the grant or donation made in this reporting period (\$ AUD ex GST)
Apr-2025	Thoracic Society of Australia and New Zealand (TSANZ)	A medical grant for the Thoracic Society of Australia and New Zealand’s (TSANZ) MSAC Project. TSANZ are initiating a critical advocacy campaign to secure Medicare Benefits Schedule (MBS) funding for thoracic bronchoscopy biopsy procedures which are essential for the accurate and timely diagnosis and management of lung cancer. This initiative is particularly urgent as we prepare for the NLCSP, set to commence in mid-2025, which will significantly increase demand for these essential procedures. BI’s contribution was combined with other companies who have committed to the TSANZ MBS funding initiative. BI played a vital role advocating for these changes and ensuring that interventional pulmonologists are adequately resourced to meet the needs of patients that come through the NLCSP. As a key stakeholder, our support provided the necessary funding to engage a specialist consulting firm to lead and navigate the complex and time-sensitive MSAC application process.	5,000.00
