**Summary Grants and Donations to Healthcare Organisations by Medicines Australia Member Companies**

**Company:** BeOne Medicines AU Pty Ltd  
**Number of grants & donations made:** 3  
**For the period:** 1 May 2025 - 31 December 2025

Date (month/year) on which the grant or donation was made	Name of Healthcare Organisation	Description of the purpose of the grant or donation	Total monetary value of the grant or donation made in this reporting period (\$ AUD ex GST)
July 2025	Centre for Community - Driven Research (PAG)	NPON operates as a professional body for patient organisations and our 2025 conference will focus on creating systems where equity is sustained over time, addressing systemic inequalities and ensuring long-term fairness in resource distribution. The workshop and conference will be attended by over 35 patient advocacy organisations, looking at building a partnered approach to advocacy with the private and public sector.	15000
September 2025	Rare Cancers Australia	<p>RCA will host the Thought Leader Series in Australian Parliament House with members of the Parliamentary Friends of Cancer Care and Cure provides a unique opportunity to meet and engage with parliamentarians with a keen interest in cancer policy, in an informal way. These initiatives encourage rich conversation and awareness raising for decision-makers to become familiar with the challenges that characterise advocacy positions.</p> <p>As well as supporting a report which will build on a Rare Cancer Moonshot, using a new Lived Experience Survey and other data to demonstrate the inequities for people with rare and less common cancers, reflect on how our systems are currently meeting people's holistic needs, and identify opportunities for improving outcomes. The report will also look at progress against the recommendations in Moonshot and how we can push ahead on priority changes, including access to treatments and genomic-led care</p>	35000
September 2025	Private Cancer Physicians of Australia	In-depth scientific sessions on patient management and cutting edge technologies to collaborate, innovate and shape a future to promote and work towards a health system that provides high quality, fair, integrated cancer treatment that benefits patients and supports clinicians	15000
